Software Development

Creative Techie, with strong communication skills. Decades of experience in C, writing software & tools: algorithms, computation, search, new programming language development, automated testing, UX/UI design & prototyping, internal OS and computer architecture.

Designed and developed a multi-threaded, MVCC, NoSQL Database with location-based components, licensed by Apple and other clients, IP ownership maintained.

Experience

Software Developer & Consultant, Millburn, NJ 1989-Present

Developed and Designed custom tools and commercial apps (core language C):

3 custom programming languages & interpreters; an add-on app for Apple's Internet Mail Server for multiple domains & advanced routing; a message-based multi-threaded simulation engine with lock-free data structures for shared memory parallel processors; an Apache CGI-App gateway; a CMS for a subscription-based web publication; provided custom Internet hosting since 1996; tech consulting for individuals and small businesses

InterActions Media, a division of NCI Advertising / Publicis, New York, NY 1998-2002

Co-Founder, VP Development — Created and managed 25 projects, peak team size of 10 people. Software for education, marketing, games, contests, surveys, and secure data collection.

Ehrlich Multimedia / Times Mirror Multimedia, Park Ridge, NJ 1993-1995

Developed Interactive CD-ROM titles and custom tools.

Graphex Imaging Systems, Yonkers, NY 1991-1993

Computer graphics & tools, ported C source for a PostScript RIP from Windows to Mac & Unix.

Symantec / Peter Norton Product Group, Santa Monica, CA 1991

Consultant — Developed components and tools for The Norton Desktop for Windows 3.

Citicorp / Transaction Technology, Inc., Santa Monica, CA 1989-1991

Consultant — QA for Bank ATMs. Took the initiative to develop a Goal-Seeking programming language & interpreter to model ATMs. The interpreter generated robot code to test ATMs.

Digital Equipment Corporation, Boxborough, MA 1985-1989

Automated Computer Architecture Verification software for CISC and RISC CPUs. Developed test strategies, methods, and Monte Carlo models for register files, instruction order, and floating point.

Education

University of California, Los Angeles, CA 1989-1991

Advanced to Candidacy for a M.S. in Computer Science (ABD), GPA 3.71, Computer Architecture, Fault Tolerant Computing, & Parallel Simulation. Developed a multi-threaded simulation engine for a Shared Memory Parallel Super Computer. ACM Programming Team.

University of Massachusetts, Amherst, MA 1981-1985

B.S. in Computer Science, GPA 3.92, elected to Phi Beta Kappa, Cum Laude

Dean's list every semester & an Alumni Scholar. Operating systems, numerical computation, and computer graphics. Graduate TA my last semester for a course on assembly language.

Interests

Community theater and a cappella (have performed on radio, television, and film).
